

Curriculum Vitae

Hamed Ebrahimzadeh Leylabadlo

Assistant Professor, Medical Bacteriology

Liver and Gastrointestinal Diseases Research Center, Tabriz University of Medical Sciences, Tabriz, Iran

PERSONAL DATA

Nationality: Iranian

Place of Birth: Tabriz, Iran

Date of Birth: 7 January 1990

Email: hamedebr7@gmail.com, ebrahimzadehh@tbzmed.ac.ir

ORCID ID: <https://orcid.org/0000-0002-3790-9176>

Scopus ID: 56780191800

EDUCATIONAL BACKGROUND

Ph.D. in Medical Bacteriology (2017-2021)

Tabriz University of Medical Sciences

Dissertation: Molecular analysis of gut microbiota (Bacteroidetes, Actinobacteria, Firmicutes and Proteobacteria) in patients with non-alcoholic fatty liver, type 2 diabetes and healthy people

M.Sc. in Medical Microbiology (2013-2016)

Tabriz University of Medical Sciences

Thesis: Frequency of *tnpA* and *tnpB* Genes in patients with *Helicobacter pylori* infection in Tabriz

RESEARCH EXPERIENCES AND FIELDS OF INTEREST

- Human Microbiome
- Gastrointestinal Microbiome
- Microbial Pathogenesis
- Gastrointestinal Infections
- Clinical Microbiology
- Microbiome in Health and Diseases
- *Helicobacter Pylori*
- Infectious Agents
- Antibiotic Resistance

RESEARCH PROJECTS

Ph.D, M.Sc, Research, Tabriz University of Medical Sciences (2013-2022)

- Molecular analysis of gut microbiota (Bacteroidetes, Actinobacteria, Firmicutes and Proteobacteria) in patients with non-alcoholic fatty liver, type 2 diabetes and healthy people
- Evaluation of diversity and abundance of commensal and pathogenic microbes (bacteria and viruses) in the feces of people with metabolic syndrome
- Molecular investigation of changes in gut microbiota and the relationship between the effect of an gut bacteriophage in these changes and the severity of symptoms of irritable bowel syndrome
- Identification of pathogenic bacteria from stool samples of people with irritable bowel syndrome
- Molecular analysis of gut microbiota in autism patients
- The association of phylogenetic types of the *Klebsiella pneumoniae* isolates with antibiotic resistance in Tabriz during 2019
- Molecular typing of Multi Drug Resistant *Klebsiella pneumoniae* isolated from hospitalized patients by the MLVA methods at Tabriz during 2020
- Study on carbapenemases activities in MDR *Klebsiella pneumoniae* isolates by mCIM method, and carbapenemase genes blaIMP , blaNDM , blaVIM , blaKPC-2 and, blaOXA-48
- Investigating of the combined effect of beta-lactam, macrolide and aminoglycoside antibiotics on *Pseudomonas aeruginosa* biofilm in laboratory conditions
- Evaluation of *Porphyromonas gingivalis* DNA in the joint fluid of rheumatoid arthritis patients by Real Time PCR method
- Frequency of tnpA and tnpB Genes in patients with *Helicobacter pylori* infection in Tabriz

CONGRESS PRESENTATIONS

- Alterations of the Gut Dominant Bacterial phyla in Patients with Metabolic Syndrome (22th Congress of Gastroenterology and Liver Diseases of Iran)
- Study on Anti-biofilm activity of Azerbaijani Honey on Clinical Bacterial Isolates (7th International Congress of Laboratory and Clinic and 1st conference of Clinical virology, Tehran, Iran)
- Determination of pattern of antimicrobial resistance of pseudomonas strain isolated from patients in a university tertiary hospital, Tabriz (7th International Congress of Laboratory and Clinic and 1st conference of Clinical Virology, Tehran, Iran)
- Evaluation of brucellosis in Iran (The 8th International Congress on Clinical Microbiology, Oct, 2014, Tabriz, Iran)
- Tuberculosis drug resistance in Iran (The 8th International Congress on Clinical Microbiology, Oct, 2014, Tabriz, Iran)
- Viral Infections in Patients with Acute Respiratory Infections (16th International and Iranian Congress of Microbiology, Tehran, Iran Aug 25-27, 2015)
- Increasing the Prevalence of Carbapenem Resistant *Citrobacter freundii* Isolated from Blood Culture in Tabriz, Iran (16th International and Iranian Congress of Microbiology, Tehran, Iran. Aug 25-27, 2015)
- Prevalence and Antibiotic Susceptibility Pattern of Bacterial Isolates from Blood Culture in a Hospital, Tabriz (16th International and Iranian Congress of Microbiology, Tehran, Iran. Aug 25-27, 2015)
- Update on the Epidemiology of Tuberculosis in Iran (16th International and Iranian Congress of Microbiology, Tehran, Iran. Aug 25-27, 2015)
- Emergence of Colistin Resistance in the World (7th International Congress of Laboratory and Clinic and 1st conference of Clinical Virology, Tehran, Iran)
- Evaluation of Modified Hodge test versus Carba NP test for rapid detection of carbapenemase producing isolates (7th International Congress of Laboratory and Clinic and 1st conference of Clinical Virology, Tehran, Iran)
- Prevalence of Carbapenemases in the Middle East (7th International Congress of Laboratory and Clinic and 1st conference of Clinical Virology, Tehran, Iran)
- Prevalence of Human Papillomavirus (HPV) Infection among Iranian Women (Second Debatable Topics in Obstetrics, Gynecology and Infertility, "DTOGI" Congress)
- Antimicrobial resistance of bacteria in bloodstream infections isolated from Patients in a University Tertiary Hospital (5th Iranian Congress of Medical Bacteriology)
- *Helicobacter pylori* resistance to clarithromycin and metronidazole in Asia (5th Iranian Congress of Medical Bacteriology)
- The Role of Microbiome in Pancreatic Cancer (2nd International Laboratory Diagnostics Congress)
- Phenotypic and Genotypic Diagnosis of Carbapenem-Resistant Enterobacteriaceae (2nd International Laboratory Diagnostics Congress)

AWARDS AND SCIENTIFIC HONORS

- Award-winner Iran's National Elites Foundation (INEF) (2022)
- Award-winner Iran's National Elites Foundation (INEF) (2020)
- Award-winner best Ph.D. student in the 4th Grand Student Scientific Award, East Azerbaijan (2019)
- Award-winner best researcher of Tabriz University of Medical Sciences (Ph.D. candidate level) (2021)
- National Outstanding Researcher (2020)
- National Outstanding Researcher (2017)
- Member of talented students office of the Tabriz University of Medical Sciences, Ph.D. (2020)
- Member of talented students office of the Tabriz University of Medical Sciences, M.Sc. (2017)
- The first top student M.Sc. course (2016)
- Ranking sixth in the Ph.D. entrance exam (Ministry of Health of Iran) of Medical bacteriology (2017)

TEACHING EXPERIENCE

Teaching:

Microbiology and bacteriology (theoretical and applied courses)

- **Doctoral level:** Medicine students, Dentistry Students
- **M.Sc. level:** Master students of Microbiology
- **B.Sc. level:** Medical Laboratory Sciences, Nursing, Microbiology

Workshops:

Tabriz University of Medical Sciences

- Research methods
- Writing proposals
- Search electronic resources
- Writing scientific articles
- Review of scientific articles
- Bioinformatics
- Polymerase Chain Reaction

BOOKS

- Microbiology: A Laboratory Manual, 11th edition (translation)-2021
- Bailey & Scott's Diagnostic Microbiology (translation)-2017

MEMBERSHIP IN SCIENTIFIC SOCIETIES

- Iranian Society of Microbiology 2020-Present
- Medical Council of the Islamic Republic of Iran 2021-Present
- Associate Editor in Journal of Research in Clinical Medicine (JRCM) 2021-Present
